Capital and accumulation, \$650,000.  
THIS Company is one of the oldest,  
and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all conceivable circumstances, for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.  
Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessment beyond his premium.  
The directors are required to be peculiarly interested in the company, and they give it their personal attention; and bonds of sufficient security are given by its officers for the faithful performance of their duties.  
Insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

**Highly Important to Farmers.**  
THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.  
LOCATED AT MADISON, WISCONSIN.  
THIS Company continues to take risks upon Goods, Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible companies. All losses promptly paid at the office as soon as proof is made thereon.  
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses upon your own of the same class, and all will be on an equal footing.  
Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.  
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.  
The best of references given as to the responsibility of the company.

## THE COUNTY COMMITTEE

Appointed by the freemen of Rock county at the mass meeting on the 4th of July, are requested to meet at the office of Steeper & Norton, in Janesville, on Thursday, the 17th inst., at 2 o'clock P. M. The attendance of every member of the committee is earnestly invited.  
L. P. HARVEY, Chairman.

Janesville, Aug. 8th, 1854.

The members composing this committee, are L. P. Harvey, of Turtle; J. H. Budd, Janesville; Peter Schmitt, Harmony; G. H. Williston, Janesville; S. G. Colley, Beloit; John Howe, Magnolia; A. Hoskins, La Prairie; J. Dawson, Union; Edward Vincent, Milton.

**JUDICIAL CANDIDATE.**—We rejoice to see the name of Alexander L. Collins proposed as an independent candidate for judge in the new judicial circuit formed of the counties of Jefferson, Dane and Sauk. Mr. Collins has not sought the office, but a spontaneous call from some of the most prominent citizens of Watertown and Madison, comprising men from all parties, has met with his acceptance. In point of qualifications and fitness for that responsible office, we know of no other man within the circuit, to be named with Mr. Collins, and we do not see the necessity or propriety of any opposing nomination being made.

**ILLINOIS ELECTION.**—The approaching election in Illinois promises to be a lively one. The state will be thoroughly canvassed. Senator Chase and J. R. Giddings of Ohio and George W. Julian of Indiana, have each promised to address the people in various localities against Senator Douglass and his Nebraska perfidy. Douglass will himself take the stump, and the issue will be brought directly to the popular decision. We are sorry to see a disposition among the free soilers of Mr. Washburne's district to stand out from his support, and hope they will yet come to the conclusion to sustain so true a representative as he has proved himself to be. The general result in the state will be looked for with great interest, and if senator Douglass should be "laid out" it will be a triumph worthy a national celebration.

**NOR BAD.**—One of our "oldest citizens" has a tenant from "down east" living with him in his house, and an out-building belonging to the premises becoming rather too odorous during the late hot weather, the tenant, without the knowledge of his landlord, entered with due ceremony a complaint to the board of health against the offending building as a nuisance. With commendable promptness on the part of the board of health a notice was served on the landlord to remove at once the cause of offence. Dismalizing so peremptory a summons, the landlord informed his tenant that some person (coupled with an epithet more emphatic than complimentary) had made a complaint against his building and he had got to remove it. The comforting answer by the tenant was, that he had himself made the complaint with a view to its removal at the expense of the city! Probably by this time the tenant in question has ascertained the exact extent of his favor to his friend and at whose expense nuisances are abated.

**NEW GERMAN PAPER.**—Mr. Krueger, the state librarian, will issue a new German paper at Madison in a few days. Mr. K. is an accomplished scholar and writer, and ought to make a paper that will benefit his countrymen. As a general thing, we regard the influence of these already established as anything but salutary. Deriving their support mainly from the party, by liberal jobs from the state government, they conceive their mission to be (as it in fact is) to sustain their party let it do what it will, and by any means which will best accomplish their object. For a people so intelligent upon general matters, we don't know where to look for those so deceived about "democracy" as the Germans of this state.

**THE GRAIN MARKET.**—Just now there is hardly anything doing in the grain market. Farmers are finishing up their harvesting, and in the course of a week or two will begin to bring in the new wheat pretty plentifully. The crop, notwithstanding all the adverse circumstances, is a pretty heavy one, and no preceding years has ever begun in extent with the trade that will take place this year. Buyers in this city are prepared for a very large business, and there will be a brisk competition among them. This will not hurt the farmers any, and will help to keep up the well-earned reputation of Janesville as being the best grain market in the interior of the state.

**A NEW COUNTERFEIT.**—An extra from Dye's Bank Mirror says that a large amount of counterfeit TEN CENT pieces are being circulated in New York and Boston of the most dangerous kind ever invented. They have goddess and liberty pole, cap, stars and date on one side, and United States of America, wreath and one dime on the other. They appear to be manufactured out of type metal, and galvanized over. They have the exact weight, size, thickness and appearance of the genuine, and can be told by placing them in your mouth, as they break as easy as type. It will be well to keep a look out for these pieces.

**LEW. CAMPBELL, OF OHIO.**—All the whig papers in Mr. Campbell's district have put up his name for re-election without the formality of a district convention. This is a compliment which Mr. Campbell well deserves for his brave and manly course in congress.

**GREAT SPEED.**—Monday evening, 7th inst., we received the Racine Advocate of July 20th, the paper having been only 18 days on the road, and the distance being about 60 miles.

**SATISFACTORILY EXPLAINED.**—While the company of Norwegian emigrants were staying at the railroad depot and the cholera was prevailing among them, a new hearse belonging to Mr. Eylesheimer's livery stable was used to carry to the grave those who died. There having been heretofore but one hearse in the city, and that belonging to another stable, Mr. Eylesheimer was not particularly careful to keep his out of sight, and it was driven several times through Main street, as much with a view to exhibit it to the people as to perform its solemn office to the dead. While thus performing its double duty, its frequent appearance attracted the attention of a citizen of Beloit who was making a short tarry at one of our public houses, and coming to the conclusion that we were at length visited by the pestilence from which his own as well as our town has been mercifully exempted, he at once called for his baggage and prepared to return home without loss of time. A satisfactory explanation of this unusual sight of a hearse in our streets having been given him, he reconsidered his determination to leave and an alarming report of the ravages of cholera in our midst was seasonably prevented.

**The Albany Evening Journal,** after alluding to a movement on foot in Michigan for a whig state convention to nominate an out-and-out whig ticket, says:—"We think if we lived in Michigan, we should be willing to vote for a ticket as nearly whig as that now in nomination, rather than to aid, indirectly, in continuing the miserable dough faces of that state in power."

**"HOME ENDORSEMENT."**—In Col. Richardson's county the delegates to the congressional convention for his district have been instructed to vote for Isaac N. Morris of Quincy. The colonel, engineer, as chairman of the committee on territories, the Nebraska bill through the house of representatives, and the vote of instructions to nominate somebody else in his place show what his own people think of his conduct.

**TRIAL OF REAPERS.**—The great trial between the Wright and Manney reapers, came off at Belvidere, Illinois, a few days ago. Wright's reaper cut seven acres, and eight hundredth, in four hours and fifty-three minutes. Manney's cut six acres, and seventy-seven hundredths, in four hours and twenty-five minutes. This gives Wright's reaper an advantage of a minute or so to the acre. But so close were they together, that the decision is to depend upon the manner in which the grain is left for the binder.

This is a pretty close trial of the excellence of two reapers, and we have no doubt that both of them will be improved in another year. They are all wanted here and had we twenty more of each in this country, much grain would have been saved by them, perhaps as much as the whole twenty were worth.

Since the above was up we have seen a more full account of this great trial. Twenty acres and twenty-two hundredths in all were cut by each reaper. Wright's was cut in 12 hours, 55 minutes. Manney's 10 hours and 3 minutes.

There appears to be as little difference in time when the wheat was shocked as can be imagined, but the whole amount shocked is not given in the Chicago Journal.

Manney used a wider machine than the one he sells, saying that it made no odds, for what he gained in stroke he lost in power, but that the wide machine worked cleaner. Wright considers this an alteration of Manney's machine. The judges do not seem to have objected to the width of the machine.

The award is uncertain. The losing party is to give \$1500 to the Illinois State Agricultural Society. At all events, both reapers have proved to be great inventions.—Standard.

The last report we have seen is that no award had been made, in consequence of an inability to agree, and that Mr. Wright had offered another challenge.

**The Colt investigating committee** in congress have reported in favor of the incorruptibility of their own members. How could any one imagine that a member of the present congress is no better than he should be?

**A slavery paper** has been issued in Nebraska, called the Nebraska Palladium. It is published in Bellevue City, and starts with an extravagant laudation of senator Douglass.

**Mr. Dockery, the whig candidate** for governor in North Carolina, is an opponent of the Nebraska bill, and on this ground his election, if secured, will be hailed with general satisfaction at the north. The defeat of Mr. Badger for re-election to the U. S. senate would be another desirable result, even if a Nebraska democrat should take his place.

**CATHOLIC BISHOPS.**—A leading editorial in the New York Times of the 31st, says that "Know Nothingism" has broken out among the bishops of the catholic church, and that the feud between American church dignitaries and those of foreign birth, is going to Rome for a final adjustment by a council of which the pope will be the head. Another account says that a papal nuncio may be expected in this country to settle the existing differences.

**"SPIRITUALISM."**—Henry Jones (formerly of Albany) has an article in Putnam's August Monthly, the object of which is thus stated by the writer:

"We intend to prove if we can, first, that it is impossible that a spirit should manifest itself physically; secondly, that the power which, it is pretended, does reveal certain mysteries of an unknown life, by means of these outward demonstrations and living media, is by its own confession, not a spiritual power, and yet, that it is none the less, (by its own showing again) incapable of physical manifestations; and thirdly, that this supposed revealing power, whatever it may be, is an evil power; for the system of religion advanced by its agents is opposed to divine revelation, contradictory, irrational, and pernicious."

**MOST EXTRAORDINARY SWINDLE.**—The amount of over-issued stock of the Parker Vein Coal company is now ascertained to be 140,000 shares; namely, legal issue 30,000; actual issue 170,000.

**NOT A VERY PLEASANT COMPARISON.**—In London, with a population of two and a half millions, the total number of deaths for the week ending July 1st, was 1,299. In New York with a population of about 750,000, not one-third that of London, the deaths last week were 1,139, or within 160 of those of London.

**WHAT IS CHOLERA?**—Dr. Starkweather, of Kenosha, furnishes the Telegraph with the following answer to the question of "what is cholera?" as given by Dr. Cox, of New York city:

1. Dr. Cox regards the disease as truly a diarrhea. The looseness of the bowels which has formerly been considered a "premonitory symptom" of the cholera, Dr. Cox considers to be the disease itself. The solid fecal contents are passed off, usually without any pain, and profuse discharges of fluid—technically "rice water discharges"—follow. Vomiting and cramps set in, the countenance puts on a leaden hue, the nose is pinched, the lips are contracted, the skin shrinks tight to the bones, the surface of the body becomes cold, the pupils of the eyes contract, and death soon closes the scene.

All this Dr. Cox regards as the simple consequence of the enormous discharges from the bowels, which, (after their solid contents have passed off) consist of nothing more or less than the fluid portion of the blood which filters through the relaxed membranes into the bowels, and is forced from the body by their action. A man who dies from cholera, then, in Dr. Cox's view, simply bleeds to death by hemorrhage through the bowels. His body, in the last stage of the disease, literally "collapses." The diarrhoea has carried away all the watery portion of the circulating fluid, and the body has become a living mummy. All its pipes are collapsed, because, they no longer contain any of the fluid to resist the external pressure of the atmosphere upon them. The nausea and cramps are such as would attend any other violent hemorrhage.

2. Dr. Cox does not regard the cholera as contagious, in such a sense that it is transmitted from one person to another by a touch or intercourse. It is not contagious, in any sense similar to the small pox, measles and scarlet fever. "A more unfounded apprehension," says Dr. C., "was never entertained."

3. Dr. Cox is very far from considering the cholera as incurable. While no disease, he says, has a more fatal tendency than this diarrhoea unchecked, "none ever was more manageable at an early period."

**THE BEAUTIES OF INTERNAL NAVIGATION.**—The following is an extract from the log of the captain of the steamer Geneva, recently arrived at St. Louis from the mouth of the Yellowstone river, after the shortest trip ever made between the two places:

"July 1.—Fell in with a grisly bear swimming the river; opened a fire upon him without effect; after receiving several rounds, nothing daunted, he made direct for the boat, apparently with the design of boarding us; but, finding that rather inconvenient, he sheered off with a terrific growl and dropped astern and made for the opposite shore, which he failed to reach, for about this time captain T. brought his gun to bear upon him and placed an ounce ball in his shoulder, which shattered the blade and caused his bearship to utter another terrific complaint; and notwithstanding his loud protest against such treatment, the captain soon gave him another. The two shots rather had the effect of retarding than accelerating his onward movement. By this time Mr. Bassett had the yawl lowered, and accompanied by Mr. Wilcox with his rifle, made for the enemy, with the intention of bringing him to terms; but refusing any kind of negotiation and at the same time assuming a very menacing attitude, all negotiation was terminated by Mr. Wilcox putting a ball through his head; and in a few minutes he was seen suspended from the stern derrick, heels uppermost. This ended the bear fight, and we went on our way rejoicing."

**AN "AWFUL WHISPER."**—For several days a rumor under the above head has been floating through our exchanges, that Madame Sontag and Signor Pozzolini came to their deaths by poison. The story was started by an Italian paper in New York, but is of so monstrous a nature that little or no attention has been paid to it. The Saturday Evening Gazette speaks of the matter in the following positive manner:

"We regret to say that we have the best of reason to believe, that the 'awful whisper' relating to Sontag and Pozzolini, which speaks of their deaths being caused by poison, is not a mere Italian invention, but has a foundation in fact. From a friend who arrived in the city today, we hear that in New York, it is believed among musical people, that jealousy caused this act, and this belief is based upon information received direct from Mexico, which positively asserts that previous to her death Sontag expressed a fear that she had been poisoned. It is also further stated, by a gentleman in New York that the bodies of both had been disinterred and evidence found to settle the question beyond a doubt that both met an untimely death. Count Rossi was last heard of in St. Louis, and when he reaches New York, this mystery will be cleared up. Did we not suppose that there was truth in this yet vague rumor, we should not give it publicity."

**Banks somehow make up the heaviest losses.** Their success under careful management is so marked that they are favorite stocks. A case in point is related by the New York Evening Post:

The Manhattan banking company have declared an ordinary and an extra dividend, each of four per cent. for the half year. This prominent company have completely recovered from their reverses of 1840, when, from the wild use they made of the government deposits and other trust moneys, they found they had lost over \$800,000 of their capital. For six years the company paid no dividend whatever, but in 1846 they had regained their capital lost in 1840, and were enabled to divide 3 per cent. Thenceforward, semi-annually, they paid dividends of 3, 2 1/2 and 4, continuing 4 per cent. till now, when they are enabled to divide 8 per cent. and yet have, as we are informed, a surplus of \$285,000. It has for the last six years been the policy of the company not to divide their whole earnings, but to reserve a strong balance.

**ROCK ISLAND RAILROAD BRIDGE.**—The Chicago Journal in speaking of the late order given by secretary Davis, for the removal of the squatters from Rock Island, says:

"Mr. Farham, the contractor for the bridge received first a telegraphic dispatch and afterwards a letter from Washington, that he need not pay any attention to the order, that it was not intended to apply to the railroad bridge builders but to certain squatters and trespassers who infested the upper end of the Island. It was stated that the order was made general in its terms to sweep off these landless trespassers entirely, and as far as the bridge was concerned the work need not stop. The order would be amended so as not to be applicable to the Chicago and Rock Island railroad company. In consequence of this, Mr. Farham feels no more apprehension about his bridge than he did when some people down the river threatened it with an injunction."

The dahlia is native of the marshes of Peru, and was named after Dahl, the famous Swedish botanist. It is more than thirty years since its introduction into Europe, and it is now the universal favorite of florists. The number of known varieties is about five hundred.

**THE GREYTOWN DESTRUCTION.**—The wanton and ruthless destruction of a defenceless town, by a United States ship, acting with express orders from the government, is repudiated by the almost united voice of the press and people. So far, indeed, not even the official organ has attempted, either a defence or an explanation. Nor has a member of congress, too many of whom are as big game as any meanness, uttered a word of approval.

The town was destroyed, as is avowed, because its inhabitants neglected to pay a money demand of a steamship company, and refused to apologize for an alleged insult to Mr. Borland.

There is no evidence that the demand for money was just or equitable; but there is evidence that Mr. Borland protected a man who shot down a native against the authorities of Greytown.

Upon the merits of the controversy, therefore, it is not safe to presume that "Joe White" and "Simon Borland" were in the right. But even if they were right, the offence was not one for which a whole town should have been burnt and sacked.—Alb. Jour.

**CORKING THE JUG.**—A correspondent of the Philadelphia Sun, writing from Cohasset, Mass., relates a good anecdote of a physician residing in that place, which he says is a fact, and the best temperance lecture he ever heard. Some thirty years ago, this doctor was addicted to hard drinking, and neglected his professional duties to such an extent, that the people were obliged to send to Boston for a new physician, a younger man, who was colonized among them. Things went along very well for a time, the old doctor losing patients and the new one finding them. At last this brace of pestles met in a store, the old doctor purchasing a jug of rum, and the young doctor buying a barrel of flour. Some invidious remark of a bystander called forth a sneer from the new doctor. This was noticed and interrupted by the old one, who with a calm and deliberate air put the cork into the jug of rum, and turning to his sneering rival, he said, "I have put the cork into that jug, and I will never take it out again till I have starved you out of the town of Cohasset." He kept his word, and in about a year from that time he had regained his old patients and friends, and obliged the new doctor to evacuate for fear of starving.

**GREYTOWN NO. 2.**—The citizens of Albany and Greenbush have been playing "Hollins" with a piggy, which was situated on Greenbush island. A flotilla of boats landed the storming party, and they carried the place by a coup de main. After the victory, the garrison was given up to sack, according to the recognized rule in such cases, and the pens having been torn down, were burned. The poor pigs, thus unceremoniously turned out of house and home, huddled on one corner of the island, much as we suppose the inhabitants of Greytown to have done, winking their funny little eyes, and wondering what next. But the light of the conflagration alarmed Albany and Greenbush; the bells rang, the proprietors of the swine armed and flew to the rescue, but only to behold the ashes of their pens and the diminishing coat skirts of the invaders, who had retreated. It was a gallant affair, and barring the inconvenience to the pigs, quite justifiable on sanitary grounds.—Chicago Tribune.

The Telegraph forgot to tell its readers that Robert Rantoul remained an old hunker democrat to his dying day.—Democrat.

And the Democrat forgets to tell its readers, that just before his dying day, Robert Rantoul was indignantly kicked out of the very convention which nominated Pierce, although a regularly appointed delegate, and that the reason for it was the holding of just such sentiments as are proclaimed in his speech.—Kenosha Tel.

Quite an interesting scene occurred at the dock of the Michigan Southern railroad on Wednesday evening. A gentleman who had paid his fare for Toledo on board the steamer Northern Indiana, was leaving the boat for the shore with his portmanteau in his hand. While on the plank, by some means, he dropped it into the lake. Thinking, no doubt, that he would never see it again, he offered to any one who would recover it one-half its contents. On hearing this, four persons belonging to the boat attempted its recovery. After diving four or five times three of them gave it up as a bad job; but the fourth—the barber—not willing to give it up, dove seven times without success. Thinking there was no luck in odd numbers, and anxious for the prize, he determined to try once more,—made the eighth dive, and after remaining under so long that the by-standers feared he had lost himself, his hand appeared above water with the prize, which was hailed with loud and long cheers from the crowd. The gentleman, true to his word, counted out to the lucky barber one-half the money, which amounted to between four and five hundred dollars.

**CRUELTY TO A SLAVE.**—The Lexington (Mo.) Express has an account of the death of a slave at the hands of his master, Josephus Hicklin, from which we make the following extract: "The only fault alleged against the negro was that he was dissatisfied with his master, and wanted to be sold, and that he was lazy. For these alleged offences the negro was put to the torture."

Outside of the book of martyrs it would be hard to find any case that in point of cruelty affords a parallel to this. Mrs. Stowe's imagination furnishes no case upon which this is not an improvement. The lash, fire, gouging, beating over the head with heavy clubs, the rubbing of cayenne pepper and tobacco in his eyes, &c., were some of the appliances used, not for a single day, a single day, or a single week, but every day, for more than three weeks, until he died." The fiend has not yet been arrested.

A waiter was examined the other day, before one of our courts. We annex his testimony.

"Your name is Flunkie, I believe?"

"Yes, sir, Robert Flunkie."

"Well, Mr. Flunkie, you say the defendant is no gentleman. What makes you think so?"

"Cause, sir, he always says 'thank you,' when I hand him a mutton chop, or even a bit of bread. Now, a real gentleman never does that, but hollers out, 'Here, Bill get me a mutton chop, or I will throw this pepper-box at your head.' You can't deceive me with a gentleman, your worship. Cause why? I have associated with too many of them at the race-course."

**THE KNOW-NOTHING FAMILY.**—The know nothings seemed to have flourished in England two centuries ago. John Bunyan relates in the second part of his Pilgrim's Progress, that at the time of christians setting forth on her journey there was assembled at the house of Mrs. Timorous, sundry ladies, among whom were Mrs. Bat's-Eyes, Mrs. Inconsiderate, Mrs. Light Mind and Mrs. Know Nothing. In a somewhat spicy conversation which ensued, Mrs. Know Nothing merely asks a simple question—refraining from that tactfulness which still distinguishes those of her name, from any definition of her position in the matter under consideration.

# THE DAILY GAZETTE.

**ANOTHER DEATH.**—A third death occurred among the Norwegian emigrants at the depot before the departure of the entire company from the city. The disease has not made its appearance among our citizens, and no apprehensions are felt that the health of the city has been endangered.

**The members of the county committee** appointed at the 4th of July mass meeting will notice a call for a meeting in this city next week.

**The Wisconsin of the 8th** says that Mr. Broadhead has issued an order that runners for steamboats and railroad companies shall not be allowed to pass over the Milwaukee and Mississippi road free. Their great number renders this step necessary.

**FIRST WHEAT IN MILWAUKEE.**—The first winter wheat in Milwaukee was purchased on the 8th from a Waukesha farmer at \$1 per bushel.

**APPOINTMENTS.**—The president has nominated and the senate confirmed, Diedrich Uppmann, of Milwaukee, as register of the land office for the district of Wiona, Minnesota territory. Lieut. Uppmann was a faithful officer in the Mexican war. Also John C. Calhoun, of Illinois, as surveyor general for Kansas and Nebraska, one of Douglas' pets, of course. James Guthrie, jr., son of the secretary of the treasury, gets the office of receiver of public monies for Oregon. —*Wis.*

**BODY FOUND.**—Last Monday night a corpse was found in the river opposite the lower steamboat landing at this place. The body was that of a very young man, and had not been identified yesterday. We have not heard any description of its appearance, clothing, &c.

Since the above was in type we learn that the deceased had on such clothes as are worn by German and Norwegian emigrants. There were fearful marks of violence on his person. His face was bruised so as to defy recognition, and there was blood upon his clothing. It is but too evident that there has been foul play. —*Prairie du Chien Courier.*

**WHAT SHALL I TAKE.**—A lady acquaintance, says an exchange paper, young, lovely and intelligent called in a celebrated physician to "do something" for a rash of blood to the head.

"I have been doctoring myself," said the languid fair one, with a smile, to the bluff though kind M. D., while he was feeling her pulse.

"Ah! how?"

"Why, I have taken Branderth's pills, Parr's pills, Sanburn's pills, Bull's assaparilla, Jayne's expectorant, used Dr. Sherman's lozenges and plaster, and—" "Good gracious, madam!" interrupted the astonished doctor, "all these things do your complaint no good."

"No! then what shall I take?" pettishly inquired the patient.

"Take!" exclaimed the doctor, eyeing her from head to foot. "Take!" exclaimed he, after a moment's reflection—"take off your corsets!"

A very honest chap in Boston, who wishes to sell his horse, advertises it as follows:

"For sale, a brown horse, with a Roman nose, in fine condition, and fond of traveling—having run away four times within a week."

## BY TELEGRAPH!

[REPORTED FOR THE JANEVILLE GAZETTE.]  
NEW YORK, Aug. 9th.  
The British mail steamer Africa sailed at 7 P. M. with 80 passengers and \$765,000.  
CHARLESTON, S.  
We learn from New Orleans that a few cases of the yellow fever that have occurred in that city have produced considerable alarm among strangers stopping there, and many have left. Later advices from Galveston report that work commenced on the road connecting that city with Houston has been suspended.

WASHINGTON, 9th.  
Important dispatches from San Juan were received at the state department by the Star of West.

The publication of the Daily National Era has been suspended.

RALEIGH, 8th.  
The Star says that the whigs have a clear gain of one in the senate and a loss of two in the house. It thinks there is still a chance of the election of General Dickey, whig, for governor.

BALTIMORE, 9th.  
A severe hail storm was experienced at Greenville, Virginia, on the 7th inst., whereby the growing crops were badly injured.

ST. LOUIS, Aug. 8.  
Few returns received; but what we have show a slight whig gain. In the 5th district, Miller, (whig) for congress is thought to be elected.

NEW YORK, Aug. 9.  
James Belsford, an actor well known at the south and west, was drowned at Coney Island on Monday.

WASHINGTON, Aug. 9.  
It is reported that a draft on the government drawn by F. W. Fabien in favor of S. S. Wood, was for money borrowed by Fabien to pay men for guarding the buildings of transient companies.

NEW BRUNSWICK, Aug. 9.  
The News, referring to the ratification of the reciprocity treaty, says now that the American Government have ratified the Elgin treaty, there is now no alternative left but to accept it. The provinces think Jonathan has got the best of the bargain, but notwithstanding this we look upon the measure as the opening of the brightest future New Brunswick ever knew. Instead of being confined to Great Britain, to suffer with her revenues, we have the whole country of North America for a market. We therefore go in for the treaty.

## AGAIN & AGAIN

### THE BOSTON STORE.

#### Let the Horn be Blown!!

"Sound the loud trumpet o'er land and o'er sea,"  
WHEELLOCK triumphs, and ever shall be.  
THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era.  
The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age.  
It has been well said by an ancient writer that  
"Man wants but little here below,"  
and to supply those wants

**WHEELLOCK**

**TOO SMALL!**

He has been compelled, in order to be able to supply the immense call for goods at his establishment, to

**\$39,007 00 Worth of Goods**

But who can expect to read in the brief space of one life all the articles that the

**BOSTON STORE CONTAINS.**

Indeed, history must fail to give the searcher of knowledge any accurate idea of its immense

**STOCK OF SUMMER GOODS,**

His inimitable selection of

**Fancy Dress Goods!**

He has over

**10,000 Yards of Silk Barges,**

of every style and price, and it is with no great difficulty that the fair dames of this fair valley can select, from the ONE THOUSAND PIECES,

Of all patterns and ranging in price from SIX CENTS Per Yard to Twenty-eight Cents, such dresses as will add to their exquisite beauty, though it may be a general thing, be as difficult to add to that beauty as it is to add refined gold, paint the lily, or add perfume to the violet.

It must not be inferred that we offer only these and the many other articles for outer apparel, such as Chamois and Foulard Silks, but all manner of

**Cotton, Grass & Linen Goods**

are on hand, so that every one may be entirely accommodated with every article of female apparel. —Evel French red velvet Gaiters,

Ladies' Enamelled Boots, Enamelled sewed Congress Boots,

**GLADIES MOROCCO POLKAS.**

And all the articles manufactured of the best styles—so that of this store, so far as articles which adorn La Belle see are concerned, it may be truly said

"CUSTOM cannot do the infinite variety."

While the Boston Store has made provision to protect the feet, it can also boast that it has all sorts of

**GLOVES,**

by which hands can be protected and retain

"The white wonder of our future's hand."

And in taking leave of those of whom it is no exaggeration to say they are

"Hasten's last, best gift to man,"

the Nonpareils of beauty, the Paragons of perfection, Mr. Wheellock assures his fair customers that his assistants and auxiliaries are those who unite great knowledge of the business, fine personal presence, and affability of manner, to a determination to discharge conscientiously their several and respective duties; that while they may have the proper desire to effect sales, they will never in initiation of many of our contemporaries attempt to accomplish that object by equivocation, misrepresentation, exaggeration, tergiversation, fabrication, or by direct lying.

And now to the wants of the

**COARSE-HAND SEX.**

Mr. Wheellock has every kind of material to make those articles of dress that give to man his individuality—

**PANTALOONS,**

**CALF "BOWTS," COW HIDE CO., GAZELLE, do.,**

**PATENT LEATHER CO., GRAFFIE do.,**

**HATS**

That fit every head from the Websterian brow to the country politician's scone, from the size of caput of him who is closely shorn after the Liberatorian fashion to that of him who wears the well-pommented, ambrosialized, elongated Hyperion curls.

And the spectator who buys to sell again,

**The Boston Store**

Can, at lower rates of use than any other establishment west of the Alleghany mountains, furnish that class of exchanges so much desired, which are as water fills the sea. And to them we offer

**DOMESTIC GLASSWARE, WORSTED,**

Pocket Handkerchiefs, Inkstands, Cotton Yarn, Ready-made Vests, Ground Pepper, Flannels, Looking Glasses, Ready-made Dress Coats, Pants, Raincoats, Flat Irons and Cotton Batting, Lanterns, Satchels, which the whining school-boy with shining morning face bears on his arm.

Respectfully,

**WM. ADDY,**

Merchant Tailor, & Dealer in Ready Made Clothing and Gentlemen's Furnishing Goods.

HAS received his Spring and Summer STOCK, consisting of the very Best and Fashionable CLOTHS, CASSIMERES, DOESKINS and VESTINGS, of English, French and American manufacture.

**No Fit, No Sale, is my doctrine.**

You will ask how I can do this; I will tell you: From my long experience in this business, and being a practical Tailor, I know where, and how, to buy my goods; what to pay for them, and how to cut them, not having to secure the services of an eminent artist, at a salary of \$1,000 to \$1,500 a year, which the purchaser must pay for this is the secret. I have got on hand a good assortment of

of my own manufacture, and warranted in every respect. *Call and examine, before you buy elsewhere.*

## HARDWARE!

### JOSEPH A. WOOD & CO.,

#### Sign of the Padlock.

THE SUBSCRIBERS, thankful for the liberal patronage extended to them during the past year, would respectfully inform the people of Wisconsin that they have received the LARGEST AND BEST SELECTED STOCK of

**Hardware, Iron, Steel, Nails, Glass, Stoves, &c.,**

ever offered in Janesville.

Among our stock of IRON and STEEL, may be found the following, to which we invite the attention of Blacksmiths, Wagon-Makers and Machinists.

For telegraphic news see third page.

## THE COUNTY COMMITTEE.

Appointed by the freeholders of Rock county at the mass meeting on the 4th of July, are requested to meet at the office of Sleeper & Norton, in Janesville, on Thursday, the 17th inst., at 2 o'clock P. M. The attendance of every member of the committee is earnestly invited.  
L. P. HARVEY, Chairman.

JANESVILLE, Aug. 8th, 1854.  
The members composing this committee, are L. P. Harvey, of Turtle; J. H. Budd, Janesville; Peter Schmitt, Harmony; G. H. Williston, Janesville; S. G. Colley, Beloit; John Howe, Magnolia; A. Hoskins, La Prairie; J. Dawson, Union; Edward Vincent, Milton.

**JUDICIAL CANDIDATE.**—We rejoice to see the name of Alexander L. Collins proposed as an independent candidate for judge in the new judicial circuit formed of the counties of Jefferson, Dane and Sauk. Mr. Collins has not sought the office, but a spontaneous call from some of the most prominent citizens of Watertown and Madison, comprising men from all parties, has met with his acceptance. In point of qualifications and fitness for that responsible office, we know of no other man within the circuit, to be named with Mr. Collins, and we do not see the necessity or propriety of any opposing nomination being made.

**ILLINOIS ELECTION.**—The approaching election in Illinois promises to be a lively one. The state will be thoroughly canvassed: Senator Chase and J. R. Giddings of Ohio and George W. Julian of Indiana, have each promised to address the people in various localities against Senator Douglas and his Nebraska perfidy. Douglas will himself take the stump, and the issue will be brought directly to the popular decision. We are sorry to see a disposition among the free soilers of Mr. Washburne's district to stand out from his support, and hope they will yet come to the conclusion to sustain so true a representative as he has proved himself to be. The general result in the state will be looked for with great interest, and if senator Douglas should be "laid out" it will be a triumph worthy a national celebration.

**NOT BAD.**—One of our "oldest citizens" has a tenant from "down east" living with him in his house, and an out-building belonging to the premises becoming rather too odorous during the late hot weather, the tenant, without the knowledge of his landlord, entered with due ceremony a complaint to the board of health against the offending building as a nuisance. With commendable promptness on the part of the board of health a notice was served on the landlord to remove at once the cause of offence. Disliking so peremptory a summons, the landlord-informed his tenant that some person (coupled with an epithet more emphatic than complimentary) had made a complaint against his building, and he had got to remove it. The comforting answer by the tenant was, that he had himself made the complaint with a view to its removal at the expense of the city! Probably by this time the tenant in question has ascertained the exact extent of his favor to his friend and at whose expense nuisances are abated.

**NEW GERMAN PAPER.**—Mr. Krueger, the state librarian, will issue a new German paper at Madison in a few days. Mr. K. is an accomplished scholar and writer, and ought to make a paper that will benefit his countrymen. As a general thing, we regard the influence of these already established as anything but salutary. Deriving their support mainly from the party, by liberal jobs from the state government, they conceive their mission to be (as it in fact is) to sustain their party, let it do what it will, and by any means which will best accomplish their object. For a people so intelligent upon general matters, we don't know where to look for those so deceived about "democracy" as the Germans of this state.

**THE GRAIN MARKET.**—Just now there is hardly anything doing in the grain market. Farmers are finishing up their harvesting, and in the course of a week or two will begin to bring in the new wheat pretty plentifully. The crop, notwithstanding all the adverse circumstances, is a pretty heavy one, and no preceding year has ever begun in extent with the trade that will take place this year. Buyers in this city are prepared for a very large business, and there will be a brisk competition among them. This will not hurt the farmers any, and will help to keep up the well-earned reputation of Janesville as being the best grain market in the interior of the state.

**A NEW COUNTERFEIT.**—An extra from Dye's Bank Mirror says that a large amount of counterfeit TEN CENT pieces are being circulated in New York and Boston of the most dangerous kind ever invented. They have goddesses and liberty pole, cap, stars and date on one side, and United States of America, wreath and one dime on the other. They appear to be manufactured out of type metal, and galvanized over. They have the exact weight, size, thickness and appearance of the genuine, and can be told by placing them in your mouth, as they break as easy as type. It will be well to keep a look out for these pieces.

**LEW. CAMPBELL, OF OHIO.**—All the whig papers in Mr. Campbell's district have put up his name for re-election without the formality of a district convention. This is a compliment which Mr. Campbell well deserves for his brave and manly course in congress.

**GREAT SPEED.**—Monday evening, 7th inst., we received the Racine Advocate of July 20th, the paper having been only 18 days on the road, and the distance being about 60 miles.

**SATISFACTORILY EXPLAINED.**—While the company of Norwegian emigrants were staying at the railroad depot and the cholera was prevailing among them, a new horse belonging to Mr. Eyleshimer's livery stable was used to carry to the grave those who died. There having been heretofore but one horse in the city, and that belonging to another stable, Mr. Eyleshimer was not particularly careful to keep his out of sight, and it was driven several times through Main street, as much with a view to exhibit it to the people as to perform its solemn office to the dead. While thus performing its double duty, its frequent appearance attracted the attention of a citizen of Beloit who was making a short tarry at one of our public houses, and coming to the conclusion that we were at length visited by the pestilence from which his own as well as our town has been mercifully exempted, he at once called for his baggage and prepared to return home without loss of time. A satisfactory explanation of this unusual sight of a horse in our streets having been given him, he reconsidered his determination to leave and an alarming report of the ravages of cholera in our midst was seasonably prevented.

**THE ALBANY EVENING JOURNAL.** After alluding to a movement on foot in Michigan for a whig state convention to nominate an out-and-out whig ticket, says—"We think if we lived in Michigan, we should be willing to vote for a ticket as nearly whig as that now in nomination, rather than to aid, indirectly, in continuing the miserable dough faces of that state in power."

**"HOME ENDORSEMENT."**—In Col. Richardson's county the delegates to the congressional convention for his district have been instructed to vote for Isaac N. Morris of Quincy. The colonel, engineer, as chairman of the committee on territories, the Nebraska bill through the house of representatives, and the vote of instructions to nominate somebody else in his place show what his own people think of his conduct.

**TRIAL OF REAPERS.**—The great trial between the Wright and Manney reapers, came off at Belvidere, Illinois, a few days ago. Wright's reaper cut seven acres, and eight hundredth, in four hours and fifty-three minutes. Manney's cut six acres, and seventy-seven hundredths, in four hours and twenty-five minutes. This gives Wright's reaper an advantage of a minute or so to the acre. But so close were they together, that the decision is to depend upon the manner in which the grain is left for the binder.

This is a pretty close trial of the excellence of two reapers, and we have no doubt that both of them will be improved in another year. They are all wanted here and had we had twenty more of each in this country, much grain would have been saved by them, perhaps as much as the whole twenty were worth.

Since the above was up we have seen a more full account of this great trial. Twenty acres and twenty-two hundredths in all were cut by each reaper. Wright's was cut in 12 hours, 55 minutes. Manney's 10 hours, and 3 minutes. There appears to be as little difference in time when the wheat was shocked as can be imagined, but the whole amount shocked is not given in the Chicago Journal.

Manney used a wider machine than the one he sells, saying that it made no odds, for what he gained in stroke he lost in power, but that the wide machine worked cleaner. Wright considers this an alteration of Manney's machine. The judges do not seem to have objected to the width of the machine.

The award is uncertain. The losing party is to give \$1500 to the Illinois State Agricultural Society. At all events, both reapers have proved to be great inventions.—Standard.

The last report we have seen is that no award had been made, in consequence of an inability to agree, and that Mr. Wright had offered another challenge.

**THE COLT INVESTIGATING COMMITTEE** in congress have reported in favor of the incorruptibility of their own members. How could any one imagine that a member of the present congress is no better than he should be?

**A slavery paper** has been issued in Nebraska, called the Nebraska Palladium. It is published in Bellevue City, and starts with an extravagant laudation of senator Douglas.

**Mr. Dockery, the whig candidate for governor** in North Carolina, is an opponent of the Nebraska bill, and on this ground his election, if secured, will be hailed with general satisfaction at the north. The defeat of Mr. Badger for re-election to the U. S. senate would be another desirable result, even if a Nebraska democrat should take his place.

**CATHOLIC BISHOPS.**—A leading editorial in the New York Times of the 8th, says that "Know Nothingism" has broken out among the bishops of the catholic church, and that the feud between American church dignitaries and those of foreign birth, is going to Rome for a final adjustment by a council of which the pope will be the head. Another account says that a papal nuncio may be expected in this country to settle the existing differences.

**"SPIRITUALISM."**—Henry James (formerly of Albany) has an article in Putnam's August Monthly, the object of which is thus stated by the writer:

"We intend to prove if we can, first, that it is impossible that a spirit should manifest itself physically; secondly, that the power which, it is pretended, does reveal certain mysteries of an unknown life, by means of these outward demonstrations and living media, is by its own confession, not a spiritual power, and yet, that it is none the less, (by its own showing again) incapable of physical manifestations; and thirdly, that this supposed revealing-power, whatever it may be, is an evil power; for the system of religion advanced by its agents is opposed to divine revelation, contradictory, irrational, and pernicious."

**MOST EXTRAORDINARY SWINDLE.**—The amount of over-issued stock of the Parker Veila Coal company is now ascertained to be 140,000 shares; namely, legal issue 80,000; actual issue 170,000.

**NOT A VERY PLEASANT COMPARISON.**—In London, with a population of two and a half millions, the total number of deaths for the week ending July 1st, was 1,299. In New York with a population of about 750,000, not one-third that of London, the deaths last week were 1,189, or within 160 of those of London.

**WHAT IS CHOLERA?**—Dr. Starkweather, of Kenosha, furnishes the Telegraph with the following answer to the question of "what is cholera?" as given by Dr. Cox, of New York city:

1. Dr. Cox regards the disease as truly a diarrhea. The looseness of the bowels which has formerly been considered a "premonitory symptom" of the cholera, Dr. Cox considers to be the disease itself. The solid fecal contents are passed off usually without any pain, and profuse discharges of fluid—technically "rice water discharges"—follow. Vomiting and cramps set in, the countenance puts on a leaden hue, the nose is pinched, the lips are contracted, the skin shrinks tight to the bones, the surface of the body becomes cold, the pupils of the eyes contract, and death soon closes the scene.

All this Dr. Cox regards as the simple consequence of the enormous discharges from the bowels, which, (after their solid contents have passed off) consist of nothing more or less than the fluid portion of the blood which filters through the relaxed membranes into the bowels, and is forced from the body by their action. A man who dies from cholera, then, in Dr. Cox's view, simply bleeds to death by hemorrhage through the bowels. His body, in the last stage of the disease, literally "collapses." The diarrhoea has carried away all the watery portion of the circulating fluid, and the body has become a living mummy. All its pipes are collapsed, because, they no longer contain any of the fluid to resist the external pressure of the atmosphere upon them. The nausea and cramps are such as would attend any other violent hemorrhage.

2. Dr. Cox does not regard the cholera as contagious, in such a sense that it is transmitted from one person to another by a touch or intercourse. It is not contagious, in any sense similar to the small pox, measles and scarlet fever. "A more unfounded apprehension," says Dr. C., "was never entertained."

3. Dr. Cox is very far from considering the cholera as incurable. While no disease, he says, has a more fatal tendency than this diarrhoea unchecked, "none ever was more manageable at an early period."

**THE BEAUTIES OF INTERNAL NAVIGATION.**—The following is an extract from the log of the captain of the steamer Geneva, recently arrived at St. Louis from the mouth of the Yellowstone river, after the shortest trip ever made between the two places:

"July 1.—Fell in with a grisly bear swimming the river; opened a fire upon him without effect; after receiving several rounds, nothing daunted, he made direct for the boat, apparently with the design of boarding us; but, finding that rather inconvenient, he eluded off with a terrific growl and dropped astern and made for the opposite shore, which he failed to reach, for about this time captain T. brought his gun to bear upon him and placed an ounce ball in his shoulder, which shattered the blade and caused his head to utter another terrific complaint; and notwithstanding his loud protest against such treatment, the captain soon gave him another. The two shots rather had the effect of retarding than accelerating his onward movement. By this time Mr. Bassett had the yawl lowered, and accompanied by Mr. Wilcox with his rifle, made for the enemy, with the intention of bringing him to terms; but refusing any kind of negotiation and at the same time assuming a very menacing attitude, all negotiation was terminated by Mr. Wilcox putting a ball through his head; and in a few minutes he was seen suspended from the stern derrick, heels uppermost. This ended the bear fight, and we went on our way rejoicing."

**AN "AWFUL WHISPER."**—For several days a rumor under the above head has been floating through our exchanges, that Madame Sontag and Signor Pozzolini came to their deaths by poison. The story was started by an Italian paper in New York, but is of so monstrous a nature that little or no attention has been paid to it. The Saturday Evening Gazette speaks of the matter in the following positive manner:

"We regret to say that we have the best reason to believe, that the 'awful whisper' relating to Sontag and Pozzolini, which speaks of their deaths being caused by poison, is not a mere Italian invention, but has a foundation in fact. From a friend who arrived in the city today, we hear that in New York, it is believed among musical people, that jealousy caused this act, and this belief is based upon information received direct from Mexico, which positively asserts that previous to her death Sontag expressed a fear that she had been poisoned. It is also further stated, by a gentleman in New York that the bodies of both had been disinterred and evidence found to settle the question beyond a doubt that both met an untimely death. Count Rossi was last heard of in St. Louis, and when he reaches New York, this mystery will be cleared up. Did we not suppose that there was truth in this yet vague rumor, we should not give it publicity."

**Banks somehow make up the heaviest losses.** Their success under careful management is so marked that they are favorite stocks. A case in point is related by the New York Evening Post:

The Manhattan banking company have declared an ordinary and an extra dividend, each of four per cent. for the half-year. This prominent company have completely recovered from their reverses of 1840, when, from the wild use they made of the government deposits and other trust moneys, they found they had lost over \$800,000 of their capital. For six years the company paid no dividend whatever, but in 1846 they had regained their capital lost in 1840, and were enabled to divide 8 per cent. Thereafter, semi-annually, they paid dividends of 3, 3 1/2 and 4, continuing 4 per cent. till now, when they are enabled to divide 8 per cent. and yet have, as we are informed, a surplus of \$285,000. It has for the last six years been the policy of the company not to divide their whole earnings, but to reserve a strong balance.

**ROCK ISLAND RAILROAD BRIDGE.**—The Chicago Journal in speaking of the late order given by secretary Davis, for the removal of the squatters on Rock Island, says:

"Mr. Farnham, the contractor for the bridge received first a telegraphic dispatch and afterwards a letter from Washington, that he need not pay any attention to the order, that it was not intended to apply to the railroad bridge builders but to certain squatters and trespassers who infested the upper end of the Island. It was stated that the order was made general in its terms to sweep off these landless trespassers entirely, and as far as the bridge was concerned the work need not stop. The order would be amended so as not to be applicable to the Chicago and Rock Island railroad company. In consequence of this, Mr. Farnham feels no more apprehension about his bridge than he did when some people down the river threatened it with an injunction."

The Dahlia is native of the marshes of Peru, and was named after Dahl, the famous Swedish botanist. It is more than thirty years since its introduction into Europe, and it is now the universal favorite of florists. The number of known varieties is about five hundred.

**THE GREYTOWN DESTRUCTION.**—The wanton and ruthless destruction of a defenceless town, by a United States ship, acting with express orders from the government, is reprobated by the almost united voice of the press and people. So far, indeed, not even the official organ has attempted, either a defence or an explanation; nor has a member of congress, too many of whom are as abject enough for any meanness, uttered a word of approval.

The town was destroyed, as is avowed, because its inhabitants neglected to pay a money demand of a steamship company, and refused to apologize for an alleged insult to Mr. Borland.

There is no evidence that the demand for money was just or equitable; but there is evidence that Mr. Borland protected a man who shot down a native against the authorities of Greytown.

Upon the merits of the controversy, therefore, it is not safe to presume that "Joe White" and "Simon Borland" were in the right. But even if they were right, the offence was not one for which a whole town should have been burnt and sacked.—*Lib. Jour.*

**COOKING THE JUG.**—A correspondent of the Philadelphia Star, writing from Cohasset, Mass., relates a good anecdote of a physician residing in that place, which he says is a fact, and the best temperance lecture he ever heard. Some thirty years ago, this doctor was addicted to hard drinking, and neglected his professional duties to such an extent, that the people were obliged to send to Boston for a new physician, a younger man, who was colonized among them. The things went along very well for a time, the old doctor losing patients and the new one finding them. At last this brace of pestles met in a store, the old doctor purchasing a jug of rum, and the young doctor buying a barrel of flour. Some invidious remark of a bystander called forth a sneer from the new doctor. This was noticed and interrupted by the old one, who with a calm and deliberate air put the cork into the jug of rum, and turning to his sneering rival, he said, "I have put the cork into that jug, and I will never take it out again till I have starved you out of the town of Cohasset." He kept his word, and in about a year from that time he had regained his old patients and friends, and obliged the new doctor to evacuate. for fear of starving.

**GREYTOWN No. 2.**—The citizens of Albany and Greenbush have been playing "Hollins" with a piggy, which was situated on Greenbush island. A flotilla of boats landed the storming party, and they carried the place by a coup de main. After the victory, the garrison was given up to sack, according to the recognized rule in such cases, and the pens having been torn down, were burned. The poor pigs, thus unceremoniously turned out of house and home, huddled on one corner of the island, much as we suppose the inhabitants of Greytown to have done, winking their funny little eyes, and wondering what next. But the light of the configuration alarmed Albany and Greenbush; the bells rang, the proprietors of the swine armed and flew to the rescue, but only to behold the ashes of their pens and the diminishing coat skirts of the invaders, who had retreated. It was a gallant affair, and barring the inconvenience to the pigs, quite justifiable on sanitary grounds.—*Chicago Tribune.*

The Telegraph forgot to tell its readers that Robert Rantoul remained an old hunker democrat to his dying day.—*Democrat.*

And the Democrat forgets to tell its readers, that just before his dying day, Robert Rantoul was indignantly kicked out of the very convention which nominated Pierce, although a regularly appointed delegate, and that the reason for it was the holding of just such sentiments as are proclaimed in his speech.—*Kenosha Tel.*

Quite an interesting scene occurred at the dock of the Michigan Southern railroad on Wednesday evening. A gentleman who had paid his fare for Toledo on board the steamer Northern Indiana, was leaving the boat for the shore with his port memento in his hand. While on the plank, by some means, he dropped it into the lake. Thinking, no doubt, that he would never see it again, he offered to any one who would recover it one-half its contents. On hearing this, four persons belonging to the boat attempted its recovery. After diving four or five times three of them gave it up as a bad job; but the fourth—the burber—not willing to give it up so, dove seven times without success. Thinking there was no luck in odd numbers, and anxious for the prize, he determined to try once more,—made the eighth dive, and after remaining under so long that the by-standers feared he had lost himself, his hand appeared above water with the prize, which was hailed with loud and long cheers from the crowd. The gentleman, true to his word, counted out to the lucky barber one-half the money, which amounted to between four and five hundred dollars.

**CRUELTY TO A SLAVE.**—The Lexington (Mo.) Express has an account of the death of a slave at the hands of his master, Josephus Hicklin, from which we make the following extract: "The only fault alleged against the negro was that he was dissatisfied with his master, and wanted to be sold, and that he was lazy. For these alleged offences the negro was put to the torture."

Outside of the book of martyrs it would be hard to find any case that in point of cruelty affords a parallel to this. Mrs. Stowe's imagination furnishes no case upon which this is not an improvement. The lash, fire, gouging, beating over the head with heavy clubs, the rubbing of cayenne pepper and tobacco in his eyes, &c., were some of the appliances used, not for a single hour, a single day, or a single week, but every day, for more than three weeks, until he died. The fiend has not yet been arrested.

A waiter was examined the other day, before one of our courts. We annex his testimony:

"Your name is Flunkey, I believe?"  
"Yes, sir, Robert Flunkey."  
"Well, Mr. Flunkey, you say the defendant is no gentleman. What makes you think so?"  
"Cause, sir, he always says 'thank you,' when I hand him a muton chop, or even a bit of bread. Now, a real gentleman never does that, but bellers out, 'Here, Bill get me a muton chop, or I will throw this pepper-box at your head.' You can't deceive me with a gentleman, your worship. Cause why? I have associated with too many of them at the race-course."

**THE KNOW-NOTHING FAMILY.**—The know nothings seemed to have flourished in England two centuries ago. John Bunyan relates in the second part of his Pilgrim's Progress, that at the time of christiana's setting forth on her journey there was assembled at the house of Mrs. Timorous, sundry ladies, among whom were Mrs. Dot's Eyes, Mrs. Inconsiderate, Mrs. Light Mind and Mrs. Know Nothing. In a somewhat spicy conversation which ensued, Mrs. Know Nothing merely asks a simple question—refraining with that "decency" which still distinguishes those of her name, from any definition of her position in the matter under consideration.

## KIER'S ROCK OIL,

FROM A Well 400 feet deep, Near Pittsburgh, Pa., is offered to the public as a Natural Medicine of common use, and is a different thing from the old Kentucky or American Oil, as it is entirely NATURAL, as well as externally. As a local remedy in Paralysis, Piles, Rheumatism, Deafness, Loss of Sight, Burns, &c., also, as a valuable Internal Remedy for Piles, Ague, Scrofula, Gout, Rheumatism, Erysipelas, Old Sores, Bruises of the Skin, Female Diseases, Worms, Blisters and Kidneys, Bronchitis, Pains &c. &c. It invites the investigating Physician, as well as the suffering patient, to become acquainted with its merits.

Discovered in 1849, it has been used 2 or 3 years, made multitudes of cures, and multitudes of friends—and as soon as tried the Sales not only increase but hold out. Testimony to its great merit is constantly accumulating in the hands of the proprietor by certificates, letters, and in other ways.

IT DOCTORS THE WHOLE MAN—flesh and blood—skin and bones—from head to foot—how it acts upon the system—upon diseases of different manifestations, we cannot fully tell. While it is both cathartic and astringent, it is Alterative—and mild, and a REGULATORY. A leading principle in it is *Naphtha*. When you once have it in the family you will not be without it.

Also as the best of Patent Medicines—it is thought not best to suppress the use of the work of NATURE—to make room for *Human Inventions*. Price 50 cents per bottle. It can be had of wholesalers at the large cities, and towns in the West at Proprietor's prices.

HAVE WE A REMEDY FOR THE AGUE? A tea spoonful every three hours in the absence of the fever will cure you of Ague or Diarrhoea. Physicians, Druggists, and all friends of the afflicted, will do well to recommend this oil for PROLAPSUS STOMACHI, and good will be done by the usual dose 2 or 3 times a day, and bathe the lower part of the back with it. Have you SCROFULA? The Petroleum will eradicate it, root and branch, at little cost or inconvenience. Get circulars of directions for adults and children, gratis of the agents. A trial is all we ask. Mind and get the right oil. It is a beautiful reddish color and clear. Try it for Piles.

## A GREAT MISTAKE.

**J. B. CROSBY & Co.**

HAVE just returned from New York and Boston, and purchased so large a stock of Merchandise that they have not room to store them, and to remedy this they have concluded to mark their goods down.

**A TRIFLE ABOVE COST,** which will crowd their store with customers and ensure large and heavy sales, such as no other room for goods yet to arrive. Ladies and Gentlemen.

**THIS IS NO HUMBUG,** but a REALITY, and to be convinced of this fact personally, look through their immense stock, see the amount of goods they have in store, (and but a portion of their stock has yet arrived), enquire the price, and you will acknowledge that we will sell you

**GOOD GOODS, at nearly half the Price,** than other Merchants. We shall not mention a few leading articles and their prices, but sell the balance of our stock at higher rates, as other Merchants do, but shall mark our whole stock at a small regular profit, and adhere strictly to the

**ONE PRICE SYSTEM.** Our stock consists of STAPLE AND FANCY DRY GOODS, GROCERIES, CROCKERY, BOOTS AND SHOES, HATS, CAPS, CARPETS, OIL CLOTHS, READY-MADE CLOTHING, &c. &c., to which we invite especial attention, as to quality and price, as we are determined that

**Every Sale shall give Full and Perfect Satisfaction.** Auction or shop worn goods are not cheap at any price we do not deal in; but buy only the best grade of goods, and of the latest styles. We are the only House in Janesville that do a strictly cash business, and buying of importers and wholly for cash, we

**CAN AND WILL SELL CHEAPER AND BETTER GOODS,** than those who buy small stocks on time, and sell them the same way.

**To Country Merchants,** We would say, that we will sell you goods at New York and Boston prices, adding freight. You will find us at the old stand of J. B. CROSBY, two doors above the Post Office.

ANOTHER DEATH.—A third death occurred among the Norwegian emigrants at the depot before the departure of the entire company from the city. The disease has not made its appearance among our citizens, and no apprehensions are felt that the health of the city has been endangered.

The members of the county committee appointed at the 4th of July mass meeting will notice a call for a meeting in this city next week.

The Wisconsin of the 8th says that Mr. Broadhead has issued an order that runners for steamboats and railroad companies shall not be allowed to pass over the Milwaukee and Mississippi road free. Their great number renders this step necessary.

APPOINTMENTS.—The president has nominated and the senate confirmed, Diedrich Uppmann, of Milwaukee, as register of the land office for the district of Wiona, Minnesota territory. Lieut. Uppmann was a faithful officer in the Mexican war. Also John C. Calhoun, of Illinois, as surveyor general for Kansas and Nebraska—one of Douglas's pets, of course. James Guthrie, Jr., son of the secretary of the treasury, gets the office of receiver of public monies for Oregon.—Wis.

BOAT FOUND.—Last Monday night a corpse was found in the river opposite the lower steamboat landing at this place. The body was that of a very young man, and had not been identified yesterday. We have not heard any description of his appearance, clothing, &c. Since the above was in type we learn that the deceased had on such clothes as are worn by German and Norwegian emigrants. There were fearful marks of violence on his person. His face was bruised so as to defy recognition, and there was blood upon his clothing. It is but too evident that there has been foul play.—Prairie du Chien Courier.

WHAT SHALL I TAKE.—A lady acquaintance, says an exchange paper, young, lovely and intelligent called in a celebrated physician to "do something" for a rash of blood to the head. "I have been doctoring myself," said the languid fair one, with a smile, to the bluff though kind M. D., while he was feeling her pulse. "Ah! how?" "Why, I have taken Branden's pills, Parr's pills, Sanburn's pills, Bull'sarsapapilla, dayne's exporator, used Dr. Sherman's lozenges and plaster, and—" "Good gracious, madam!" interrupted the astonished doctor, "all these things do your complaint no good." "No! then what shall I take?" pettishly inquired the patient. "Take!" exclaimed the doctor, eying her from head to foot. "Take!" exclaimed he, after a moment's reflection—"take off your coxcomb!"

A very honest chap in Boston, who wishes to sell his horse, advertises it as follows: "For sale, a brown horse, with a Roman nose, in fine condition, and fond of traveling—having run away four times within a week."

BY TELEGRAPH! (REPORTED FOR THE JANESVILLE GAZETTE.) New York, Aug. 9th. The British mail steamer Africa sailed at 7 P. M. with 36 passengers and \$765,000. CHARLESTON, S. We learn from New Orleans that a few cases of the yellow fever that have occurred in that city have produced considerable alarm among strangers stopping there, and many have left. Later advices from Galveston report that work commenced on the road connecting that city with Houston has been suspended. WASHINGTON, 9th. Important dispatches from San Juan were received at the state department by the Star of West. The publication of the Daily National Era has been suspended. RALEIGH, 8th. The Star says that the whigs have a clear gain of one in the senate and a loss of two in the house. It thinks there is still a chance of the election of General Dickey, whig, for governor. BALTIMORE, 9th. A severe hail storm was experienced at Greco, ville, Virginia, on the 7th inst., whereby the growing crops were badly injured. St. Louis, Aug. 8. Few returns received; but what we have show a slight whig gain. In the 5th district, Miller, (whig) for congress is thought to be elected. New York, Aug. 9. James Belsford, an actor well known at the south and west, was drowned at Coney Island on Monday. WASHINGTON, Aug. 9. It is reported that a draft on the government drawn by F. W. Fabien in favor of S. S. Wood, was for money borrowed by Fabien to pay men for guarding the buildings of transient companies. New Brunswick, Aug. 9. The News, referring to the ratification of the reciprocity treaty, says now that the American Government have ratified the Elgin treaty, there is now no alternative left but to accept it. The provinces think Jonathan has got the best of the bargain, but notwithstanding this we look upon the measure as the opening of the brightest future New Brunswick ever knew. Instead of being confined to Great Britain, to suffer with her revenues, we have the whole country of North America for a market. We therefore go in for the treaty.

### New England Mutual Life Ins.

Of Boston, Mass., chartered in 1843, Capital and accumulation, \$650,000.

THIS Company is one of the oldest, and among the most prudently and successfully conducted in the country. The primary object in conducting its business has been to provide perfect security under all possible circumstances for the payment of its losses under its policies, and to return to the insured the surplus at stated periods, and strict economy is observed.

Every insured person is a member of the company and shares in the profits of the business, and is subject to no liability or assessments beyond his premium.

The directors are required to be peculiarly interested in the company, and they give it their personal attention; and bonds of sufficient security are given by the officers for the faithful performance of their duties. Its insurance may be effected for the benefit of the wife, which is secured to her by law beyond the reach of a husband's creditors; and creditors may insure the lives of debtors.

WILLIAM PHILLIPS, President; D. P. STEVENS, Sec'y; O. P. ROBINSON, Examining Physician.

### Highly Important to Farmers.

THE ONLY EXCLUSIVE FARMERS' INSURANCE COMPANY IN THE WEST.

THE MADISON MUTUAL, LOCATED AT MADISON, WISCONSIN.

THIS Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, etc., from one to five years, at lower rates than most other responsible companies.

All losses promptly paid at the office as soon as proof is made thereon.

We are desirous to be for the interest of the farmers to insure by themselves, their property being less liable than any other, consequently you will have no losses unless your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds, if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops and such like property. In this company all such property is rejected positively, by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last fourteen months we have not had a single dollar loss, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the company.

IMPORTERS & WHOLESALE DEALERS IN Foreign and American HARDWARE, TIN PLATE, &c., have in store a large and complete stock of goods, received direct from the Manufacturers in this country and England.

ANOTHER DEATH.—A third death occurred among the Norwegian emigrants at the depot before the departure of the entire company from the city. The disease has not made its appearance among our citizens, and no apprehensions are felt that the health of the city has been endangered.

The members of the county committee appointed at the 4th of July mass meeting will notice a call for a meeting in this city next week.

The Wisconsin of the 8th says that Mr. Broadhead has issued an order that runners for steamboats and railroad companies shall not be allowed to pass over the Milwaukee and Mississippi road free. Their great number renders this step necessary.

FIRST WHEAT IN MILWAUKEE.—The first winter wheat in Milwaukee was purchased on the 8th from a Waukesha farmer at \$1 per bushel.

APPOINTMENTS.—The president has nominated and the senate confirmed, Diedrich Uppmann, of Milwaukee, as register of the land office for the district of Wisconsin, Minnesota territory. Lieut. Uppmann was a faithful officer in the Mexican war. Also John C. Calhoun, of Illinois, as surveyor general for Kansas and Nebraska—one of Douglas's pets, of course. James Guthrie, Jr., son of the secretary of the treasury, gets the office of receiver of public monies for Oregon.

BONY FOUNDED.—Last Monday night a corpse was found in the river opposite the lower steamboat landing at this place. The body was that of a very young man, and had not been identified yesterday. We have not heard any description of his appearance, clothing, &c. Since the above was in type we learn that the deceased had on such clothes as are worn by German and Norwegian emigrants. There were fearful marks of violence on his person. His face was bruised so as to defy recognition, and there was blood upon his clothing. It is but too evident that there has been foul play. —Prairie du Chien Courier.

WHAT SHALL I TAKE.—A lady acquaintance, says an exchange paper, lady, lovely and intelligent called in a celebrated physician to "do something" for a rash of blood to the head. "I have been doctoring myself," said the languid fair one, with a smile, to the bluff though kind M. D., while he was feeling her pulse. "Why, I have taken Branderth's pills, Par's pills, Saurbarn's pills, Bull's sarsaparilla, Jayne's expectorant, used Dr. Sherman's lozenges and plaster, and—" "Good gracious, madam!" interrupted the astonished doctor, "all these things do your complaint no good." "No! then what shall I take?" pettishly inquired the patient. "Take!" exclaimed the doctor, eyeing her from head to foot. "Take!" exclaimed he, after a moment's reflection—"take off your corsets!"

A very honest chap in Boston, who wishes to sell his horse, advertises it as follows: "For sale, a brown horse, with a Roman nose, in fine condition, and fond of traveling—having run away four times within a week."

BY TELEGRAPH! [REPORTED FOR THE JANEVILLE GAZETTE.] NEW YORK, Aug. 9th. The British mail steamer Africa sailed at 7 P. M. with 86 passengers and \$785,000. CHARLESTON, S. We learn from New Orleans that a few cases of the yellow fever that have occurred in that city have produced considerable alarm among strangers stopping there, and many have left. Later advices from Galveston report that work commenced on the road connecting that city with Houston has been suspended. WASHINGTON, 9th. Important dispatches from San Juan were received at the state department by the Star of West. The publication of the Daily National Era has been suspended. RALEIGH, 8th. The Star says that the whigs have a clear gain of one in the senate and a loss of two in the house. It thinks there is still a chance of the election of General Dickey, whig, for governor. BALTIMORE, 9th. A severe hail storm was experienced at Greenville, Virginia, on the 7th inst., whereby the growing crops were badly injured. St. Louis, Aug. 9. Few returns received; but what we have show a slight whig gain. In the 5th district, Miller, (whig) for congress is thought to be elected. NEW YORK, Aug. 9. James Belsford, an actor well known at the south and west, was drowned at Coney Island on Monday. WASHINGTON, Aug. 9. It is reported that a draft on the government drawn by F. W. Fabian in favor of S. S. Wood, was for money borrowed by Fabian to pay men for guarding the buildings of transient companies. New Brunswick, Aug. 9. The News, referring to the ratification of the reciprocity treaty, says now that the American Government have ratified the Elgin treaty, there is now no alternative left but to accept it. The provinces think Jonathan has got the best of the bargain, but notwithstanding this we look upon the measure as the opening of the brightest future New Brunswick ever knew. Instead of being confined to Great Britain, to suffer with her revenues, we have the whole country of North America for a market. We therefore go in for the treaty.

NEW BRUNSWICK, Aug. 9. The News, referring to the ratification of the reciprocity treaty, says now that the American Government have ratified the Elgin treaty, there is now no alternative left but to accept it. The provinces think Jonathan has got the best of the bargain, but notwithstanding this we look upon the measure as the opening of the brightest future New Brunswick ever knew. Instead of being confined to Great Britain, to suffer with her revenues, we have the whole country of North America for a market. We therefore go in for the treaty.

AGAIN & AGAIN THE BOSTON STORE. Let the Horn be Blown!! "Sound the loud timbrel o'er land and o'er sea," WHEELLOCK'S triumphant, and ever shall be. THIS is the middle of the nineteenth century, the first half of which has produced more change and onward movement than any fifty years of our Christian Era. The great controlling power of this age is its commerce—indeed, this may be truly called the commercial age. It has been well said by an ancient writer that "Man wants but little here below," and to supply those wants WHEELLOCK Announces to every people and every tongue, to both sexes and all parties, to all factions of all gauges, that finding his old store entirely Double the capacity of his Store Rooms! Having purchased this spring, for this market, to be sold this season, \$39,000 Worth of Goods But who can expect to read in the brief space of one life all the articles that the BOSTON STORE CONTAINS. Indeed, history must fail to give the searcher of knowledge any accurate idea of its immense STOCK OF SUMMER GOODS, Its inimitable selection of Fancy Dress Goods! He has over 10,000 Yards of Silk Barges, of every style and price, and it is with no great difficulty that the fair dames of this fair valley can select, FROM THE ONE THOUSAND PIECES, Of all patterns and ranging in price from SIX CENTS per Yard to Twenty-Eight Cents, such dresses as will to their exquisite beauty, though it may as a general thing, be as difficult to add to that beauty as it is to add to the quality, the quality, or the price. It is not to be inferred that we offer only these and the many other articles for other apparel, such as Chamois and Foulard Silks, but all manner of Cotton, Grass & Linen Goods are on change, so that every one may be entirely accommodated with every article of female apparel. Evad French Red Jodged Gathers, Ladies' Knemled Boots, Embroidered sewed Congress Boots, And all the articles manufactured of the best styles—So that of this store, so far as articles which adorn La Belle sex are concerned, it may be truly said "CUSTOM cannot stale the Lullaby of city." And now to the wants of the COARSE HAND SEX. Mr. Wheellock has every kind of material to make those articles of dress that give to man his individuality. **ANOTHER DEATH.**—A third death occurred among the Norwegian emigrants at the depot before the departure of the entire company from the city. The disease has not made its appearance among our citizens, and no apprehensions are felt that the health of the city has been endangered.

The members of the county committee appointed at the 4th of July mass meeting will notice a call for a meeting in this city next week.

The Wisconsin of the 8th says that Mr. Broadhead has issued an order that runners for steamboats and railroad companies shall not be allowed to pass over the Milwaukee and Mississippi road free. Their great number renders this step necessary.

**FIRST WHEAT IN MILWAUKEE.**—The first winter wheat in Milwaukee was purchased on the 8th from a Waukesha farmer at \$1 per bushel.

**APPOINTMENTS.**—The president has nominated and the senate confirmed, Dietrich Uppman, of Milwaukee, as register of the land office for the district of Wisconsin, Minnesota territory. Lieut. Uppman was a faithful officer in the Mexican war. Also John C. Calhoun, of Illinois, as surveyor general for Kansas and Nebraska—one of Douglas' pets, of course. James Guthrie, Jr., son of the secretary of the treasury, gets the office of receiver of public monies for Oregon.

**Body Found.**—Last Monday night a corpse was found in the river opposite the lower steamboat landing at this place. The body was that of a very young man, and had not been identified yesterday. We have not heard any description of his appearance, clothing, &c.

Since the above was in type we learn that the deceased had on such clothes as are worn by German and Norwegian emigrants. There were fearful marks of violence on his person. His face was bruised so as to defy recognition, and there was blood upon his clothing. It is but too evident that there has been foul play.—*Prairie du Chien Courier.*

**WHAT SHALL I TAKE.**—A lady acquaintance, says on exchange paper, young, lovely and intelligent called in a celebrated physician to "do something" for a rush of blood to the head.

"I have been doctoring myself," said the languid fair one, with a smile, to the bluff though kind M. D., while he was feeling her pulse.

"Ah! how?"

"Why, I have taken Broadhead's pills, Par's pills, Sanburn's pills, Bull'sarsaparilla, Jayno's expectorant, used Dr. Sherman's lozenges and plaster, and—" "Good gracious, madam!" interrupted the astonished doctor, "all these things do your complaint no good."

"No! then what shall I take?" pettishly inquired the patient.

"Take!" exclaimed the doctor, eyeing her from head to foot. "Take!" exclaimed he, after a moment's reflection—"take off your corsets!"

A very honest chap in Boston, who wishes to sell his horse, advertises it as follows:

"For sale, a brown horse, with a Roman nose, in fine condition, and fond of traveling—having run away four times within a week."

THE COUNTY COMMITTEE

Appointed by the freeholders of Rock county at the meeting on the 4th of July, are requested to meet at the office of Sleeper & Norton, in Janesville, on Thursday, the 17th inst., at 2 o'clock P. M. The attendance of every member of the committee is earnestly invited.

L. P. HARVEY, Chairman.  
Janesville, Aug. 8th, 1884.

The members composing this committee, are L. P. Harvey, of Turtle; J. H. Budd, of Janesville; Peter Schmitt, of Harmony; G. H. Williston, of Janesville; S. G. Colley, of Beloit; John Howe, of Magnolia; A. Hoskins, of Prairie; J. Dawson, of Union; Edward Vincent, of Milton.

JUDICIAL CANDIDATE.—We rejoice to see the name of Alexander L. Collins proposed as an independent candidate for judge in the new judicial circuit formed of the counties of Jefferson, Dane and Sauk. Mr. Collins has not sought the office, but a spontaneous call from some of the most prominent citizens of Watertown and Madison, comprising men from all parties, has met with his acceptance. In point of qualifications and fitness for that responsible office, we know of no other man within the circuit, to be named with Mr. Collins, and we do not see the necessity or propriety of any opposing nomination being made.

ILLINOIS ELECTION.—The approaching election in Illinois promises to be a lively one. The state will be thoroughly canvassed. Senator Chase and J. R. Giddings of Ohio and George W. Julian of Indiana, have each promised to address the people in various localities against Senator Douglass and his Nebraska perfidy. Douglass will himself take the stump, and the issue will be brought directly to the popular decision. We are sorry to see a disposition among the free soilers of Mr. Washburne's district to stand out from his support, and hope they will get some to the conclusion to sustain so true a representative as he has proved himself to be. The general result in the state will be looked for with great interest, and if senator Douglass should be "laid out" it will be a triumph worthy a national celebration.

NOT BAD.—One of our "oldest citizens" has a tenant from "down east" living with him in his house, and an out-building belonging to the premises becoming rather too odorous during the late hot weather, the tenant, without the knowledge of his landlord, entered with due ceremony a complaint to the board of health against the offending building as a nuisance. With commendable promptness on the part of the board of health a notice was served on the landlord to remove at once the cause of offence. Disliking so peremptory a summons, the landlord informed his tenant that some person (coupled with an epithet more emphatic than complimentary) had made a complaint against his building, and he had got to remove it. The comforting answer by the tenant was, that he had himself made the complaint with a view to its removal at the expense of the city! Probably by this time the tenant in question has ascertained the exact extent of his favor to his friend and at whose expense nuisances are abated.

NEW GERMAN PAPER.—Mr. Krueger, the state librarian, will issue a new German paper at Madison in a few days. Mr. K. is an accomplished scholar and writer, and ought to make a paper that will benefit his countrymen. As a general thing, we regard the influence of those already established as anything but salutary. Deriving their support mainly from the party, by liberal jobs from the state government, they conceive their mission to be (as it in fact is) to sustain their party let it do what it will, and by any means which will best accomplish their object. For a people so intelligent upon general matters, we don't know where to look for those so deceived about "democracy" as the Germans of this state.

THE GRAIN MARKET.—Just now there is hardly anything doing in the grain market. Farmers are finishing up their harvesting, and in the course of a week or two will begin to bring in the new wheat pretty plentifully. The crop, notwithstanding all the adverse circumstances, is a pretty heavy one, and no preceding year has ever begun in extent with the trade that will take place this year. Buyers in this city are prepared for a very large business, and there will be a brisk competition among them. This will not hurt the farmers any, and will help to keep up the well-earned reputation of Janesville as being the best grain market in the interior of the state.

A NEW COUNTERFEIT.—An extra from Dyer's Bank Mirror says that a large amount of counterfeit ten cent pieces are being circulated in New York and Boston of the most dangerous kind ever invented. They have goddess and liberty pole, cap, stars and date on one side, and United States of America, wreath and one dime on the other. They appear to be manufactured out of type metal, and galvanized over. They have the exact weight, size, thickness and appearance of the genuine, and can be told by placing them in your mouth, as they break as easy as type. It will be well to keep a look out for these pieces.

LEW. CAMPBELL, OF OHIO.—All the whig papers in Mr. Campbell's district have put up his name for re-election without the formality of a district convention. This is a compliment which Mr. Campbell well deserves for his brave and manly course in congress.

GREAT SPEED.—Monday evening, 7th inst., we received the Racine Advocate of July 20th, the paper having been only 18 days on the road, and the distance being about 60 miles.

SATISFACTORILY EXPLAINED.—While the company of Norwegian emigrants were staying at the railroad depot and the cholera was prevailing among them, a new hearse belonging to Mr. Eycheshimer's livery stable was used to carry to the grave those who died. There having been heretofore but one hearse in the city, and that belonging to another stable, Mr. Eycheshimer was not particularly careful to keep his out of sight, and it was driven several times through Main street, as much with a view to exhibit it to the people as to perform its solemn office to the dead. While thus performing its double duty, its frequent appearance attracted the attention of a citizen of Beloit who was making a short tarry at one of our public houses, and coming to the conclusion that we were at length visited by the pestilence from which his own as well as our town has been mercifully exempted, he at once called for his baggage and prepared to return home without loss of time. A satisfactory explanation of this unusual sight of a hearse in our streets having been given him, he reconsidered his determination to leave and an alarming report of the ravages of cholera in our midst was seasonably prevented.

The Albany Evening Journal, after alluding to a movement on foot in Michigan for a whig state convention to nominate an out-and-out whig ticket, says—"We think if we lived in Michigan, we should be willing to vote for a ticket as nearly whig as that now in nomination, rather than to aid, indirectly, in continuing the miserable dough faces of that state in power."

"HOME ENDORSEMENT."—In Col. Richardson's county the delegates to the congressional convention for his district have been instructed to vote for Isaac N. Morris of Quincy. The colonel engineered, as chairman of the committee on territories, the Nebraska bill through the house of representatives, and the vote of instructions to nominate somebody else in his place show what his own people think of his conduct.

TRIAL OF REAPERS.—The great trial between the Wright and Manney reapers, came off at Belvidere, Illinois, a few days ago. Wright's reaper cut seven acres, and eight hundredth, in four hours and fifty-three minutes. Manney's cut six acres, and seventy-seven hundredths, in four hours and twenty-six minutes. This gives Wright's reaper an advantage of a minute or so to the acre. But so close were they together, that the decision is to depend upon the manner in which the grain is left for the binder.

This is a pretty close trial of the excellence of two reapers, and we have no doubt that both of them will be improved in another year. They are all wanted here and had we twenty more of each in this country, much grain would have been saved by them, perhaps as much as the whole twenty were worth.

Since the above was up we have seen a more full account of this great trial. Twenty acres and twenty-two hundredths in all were cut by each reaper. Wright's was cut in 12 hours, 55 minutes. Manney's 10 hours and 3 minutes.

There appears to be as little difference in time when the wheat was shocked as can be imagined, but the whole amount shocked is not given in the Chicago Journal.

Manney used a wider machine than the one he sells, saying that it made no odds, for what he gained in stroke he lost in power, but that the wide machine worked cleaner. Wright considers this an alteration of Manney's machine. The judges do not seem to have objected to the width of the machine.

The award is uncertain. The losing party is to give \$1500 to the Illinois State Agricultural Society. At all events, both reapers have proved to be great inventions.—Standard.

The last report we have seen is that no award had been made, in consequence of an inability to agree, and that Mr. Wright had offered another challenge.

The Colt investigating committee in congress have reported in favor of the incorruptibility of their own members. How could any one imagine that a member of the present congress is no better than he should be?

A slavery paper has been issued in Nebraska, called the Nebraska Palladium. It is published in Bellevue City, and starts with an extravagant laudation of senator Douglass.

Mr. Dockery, the whig candidate for governor in North Carolina, is an opponent of the Nebraska bill, and on this ground his election, if secured, will be hailed with general satisfaction at the north. The defeat of Mr. Badger for re-election to the U. S. senate would be another desirable result, even if a Nebraska democrat should take his place.

CATHOLIC BISHOPS.—A leading editorial in the New York Times of the 31st, says that "Know Nothingism" has broken out among the bishops of the catholic church, and that the feud between American church dignitaries and those of foreign birth, is going to Rome for a final adjustment by a council of which the pope will be the head. Another account says that a papal nuncio may be expected in this country to settle the existing differences.

"SPIRITUALISM."—Henry James (formerly of Albany) has an article in Putnam's August Monthly, the object of which is thus stated by the writer:

"We intend to prove if we can, first, that it is impossible that a spirit should manifest itself physically; secondly, that the power which, it is pretended, does reveal certain mysteries of an unknown life, by means of these outward demonstrations and living media, is by its own confession, not a spiritual power, and yet, that it is none the less, (by its own showing again) incapable of physical manifestations; and thirdly, that this supposed revealing power, whatever it may be, is an evil power; for the system of religion advanced by its agents is opposed to divine revelation, contradictory, irrational, and pernicious."

MOST EXTRAORDINARY SWINDLE.—The amount of over-issued stock of the Parker Vein Coal company is now ascertained to be 140,000 shares; namely, legal issue 30,000; actual issue 170,000.

NOT A VERY PLEASANT COMPARISON.—In London, with a population of two and a half millions, the total number of deaths for the week ending July 1st, was 1,299. In New York with a population of about 750,000, not one-third that of London, the deaths last week were 1,139, or within 160 of those of London.

WHAT IS CHOLERA?—Dr. Starkweather, of Kenosha, furnishes the Telegraph with the following answer to the question of "what is cholera?" as given by Dr. Cox, of New York city:

1. Dr. Cox regards the disease as truly a diarrhea. The looseness of the bowels which has formerly been considered a "pneumonic symptom" of the cholera, Dr. Cox considers to be the disease itself. The solid fecal contents are passed off, usually without any pain, and profuse discharges of fluid—technically "rice water discharges"—follow. Vomiting and cramps set in, the countenance puts on a leaden line, the nose is pinched, the lips are contracted, the skin shrinks tight to the bones, the surface of the body becomes cold, the pupils of the eyes contract, and death soon closes the scene.

All this Dr. Cox regards as the simple consequence of the enormous discharges from the bowels, which, (after their solid contents have passed off) consist of nothing more or less than the fluid portion of the blood which filters through the relaxed membranes into the bowels, and is forced from the body by their action. A man who dies from cholera, then, in Dr. Cox's view, simply bleeds to death by hemorrhage through the bowels. His body, in the last stage of the disease, literally "collapses." The diarrhoea has carried away all the watery portion of the circulating fluid, and the body has become a living mummy. All its pipes are collapsed, because, they no longer contain any of the fluid to resist the external pressure of the atmosphere upon them. The nausea and cramps are such as would attend any other violent hemorrhage.

2. Dr. Cox does not regard the cholera as contagious, in such a sense that it is transmitted from one person to another by a touch or intercourse. It is not contagious, in any sense similar to the small pox, measles, and scarlet fever. A more unfounded apprehension," says Dr. C.

3. Dr. Cox is very far from considering the cholera as incurable. While no disease, he says, has a more fatal tendency than this diarrhoea unchecked, "none ever was more manageable at an early period."

THE BEAUTIES OF INTERNAL NAVIGATION.—The following is an extract from the log of the captain of the steamer Geneva, recently arrived at St. Louis from the mouth of the Yellowstone river, after the shortest trip ever made between the two places:

"July 1.—Fell in with a grisly bear swimming the river; opened a fire upon him without effect; after receiving several rounds, nothing daunted, he made direct for the boat, apparently with the design of boarding us; but, finding that rather inconvenient, he sheered off with a terrific growl and dropped astern and made for the opposite shore, which he failed to reach, for about this time captain T. brought his gun to bear upon him and placed an ounce ball in his shoulder, which shattered the blade and caused his bearship to utter another terrific complaint; and notwithstanding his loud protest against such treatment, the captain soon gave him another. The two shots rather had the effect of retarding than accelerating his onward movement. By this time Mr. Bassett had the yawl lowered, and accompanied by Mr. Wilcox with his rifle, made for the enemy, with the intention of bringing him to terms; but refusing any kind of negotiation and at the same time assuming a very menacing attitude, all negotiation was terminated by Mr. Wilcox putting a ball through his head; and in a few minutes he was seen suspended from the stern derrick, heels uppermost. "This ended the bear fight, and we went on our way rejoicing."

AN "AFTER WHISPER."—For several days a rumor under the above head has been floating through our exchanges, that Madame Sontag and Signor Pozzolini came to their deaths by poison. The story was started by an Italian paper in New York, but is of so monstrous a nature that little or no attention has been paid to it. The Saturday Evening Gazette speaks of the matter in the following positive manner:

"We regret to say that we have the best of reason to believe, that the 'awful whisper' relating to Sontag and Pozzolini, which speaks of their deaths being caused by poison, is not a mere Italian invention, but has a foundation in fact. From a friend who arrived in the city to-day, we hear that in New York, it is believed among musical people, that jealousy caused this act, and this belief is based upon information received direct from Mexico, which positively asserts that previous to her death Sontag expressed a fear that she had been poisoned. It is also further stated, by a gentleman in New York that the bodies of both had been disinterred and evidence found to settle the question beyond a doubt that both met an untimely death. Count Rossi was last heard of in St. Louis, and when he reaches New York, this mystery will be cleared up. Did we not suppose that there was truth in this yet vague rumor, we should not give it publicity."

Banks somehow make up the heaviest losses. Their success under careful management is so marked that they are favorite stocks. A case in point is related by the New York Evening Post:

The Manhattan banking company have declared an ordinary and an extra dividend, each of four per cent, for the half year. This prominent company have completely recovered from their reverses of 1840, when, from the wild use they made of the government deposits and other trust moneys, they found they had lost over \$800,000 of their capital. For six years the company paid no dividend whatever, but in 1846 they had regained their capital lost in 1840, and were enabled to divide 3 per cent. Thereafter, semi-annually, they paid dividends of 3, 3 1/2 and 4; continuing 4 per cent. till now, when they are enabled to divide 8 per cent. and yet have, as we are informed, a surplus of \$285,000. It has for the last six years been the policy of the company not to divide their whole earnings, but to reserve a strong balance.

ROCK ISLAND RAILROAD BRIDGE.—The Chicago Journal in speaking of the late order given by secretary Davis, for the removal of the squatters on Rock Island, says:

"Mr. Farham, the contractor for the bridge received first a telegraphic dispatch and afterwards a letter from Washington, that he need not pay any attention to the order, that it was not intended to apply to the railroad bridge builders but to certain squatters and trespassers who infested the upper end of the Island. It was stated that the order was made general in its terms to sweep off these lawless trespassers entirely, and as far as the bridge was concerned the work need not stop. The order would be amended so as not to be applicable to the Chicago and Rock Island railroad company. In consequence of this, Mr. Farham feels no more apprehension about his bridge than he did when some people down the river threatened it with an injunction."

The Dahlia is a native of the marshes of Peru, and was named after Dahl, the famous Swedish botanist. It is more than thirty years since its introduction into Europe, and it is now the universal favorite of florists. The number of known varieties is about five hundred.

THE GREYTONS DESTRUCTION.—The wanton and ruthless destruction of a defenceless town, by a United States ship, acting with express orders from the government, is reprobated by the almost united voice of the press and people. So far, indeed, not even the official organ has attempted, either a defence or an explanation. Nor has a member of congress, too many of whom are abject enough for any meanness, uttered a word of approval.

The town was destroyed, as is avowed, because its inhabitants neglected to pay a money demand of a steamship company, and refused to apologize for an alleged insult to Mr. Borland.

There is no evidence that the demand for money was just or equitable; but there is evidence that Mr. Borland protected a man who shot down a native against the authorities of Greytown.

Upon the merits of the controversy, therefore, it is not safe to presume that "Joe White" and "Simon Borland" were in the right. But even if they were right, the offence was not one for which a whole town should have been burnt and sacked.—*Alb. Jour.*

COOKING THE JUG.—A correspondent of the Philadelphia Sun, writing from Cohasset, Mass., relates a good anecdote of a physician residing in that place, which he says is a fact, and the best temperance lecture he ever heard. Some thirty years ago, this doctor was addicted to hard drinking, and neglected his professional duties to such an extent, that the people were obliged to send to Boston for a new physician, a younger man, who was colonized among them. Things went along very well for a time, the old doctor losing patients and the new one finding them. At last this brace of pestles met in a store, the old doctor purchasing a jug of rum, and the young doctor buying a barrel of flour. Some inviolable remark of a bystander called forth a sneer from the new doctor. This was noticed and interrupted by the old one, who with a calm and deliberate air put the cork into the jug of rum, and turning to his sneering rival, he said, "I have put the cork into that jug, and I will never take it out again till I have starved you out of the town of Cohasset." He kept his word, and in about a year from that time he had regained his old patients and friends, and obliged the new doctor to evacuate for fear of starving.

GREYTONS No. 2.—The citizens of Albany and Greenbush have been playing "Hollins" with a piggy, which was situated on Greenbush island. A flotilla of boats landed the storming party, and they carried the place by a coup de main. After the victory, the garrison was given up to sack, according to the recognized rule in such cases, and the pens having been torn down, were burned. The poor pigs, thus unceremoniously turned out of house and home, huddled on one corner of the island, much as we would, winking their funny little eyes, and wondering what next. But the light of the configuration alarmed Albany and Greenbush; the bulls rang, the proprietors of the swine armed and flew to the rescue, but only to behold the ashes of their pens and the diminishing coat skirts of the invaders, who had retreated. It was a gallant affair, and barring the inconvenience to the pigs, quite justifiable on sanitary grounds.—*Chicago Tribune.*

The Telegraph forgot to tell its readers that Robert Rantoul remained an old hunker democrat to his dying day.—*Democrat.*

And the Democrat forgets to tell its readers, that just before his dying day, Robert Rantoul was indignantly kicked out of the very convention which nominated Pierce, although a regularly appointed delegate, and that the reason for it was the holding of just such sentiments as are proclaimed in his speech.—*Kenosha Tel.*

Quite an interesting scene occurred at the dock of the Michigan Southern railroad on Wednesday evening. A gentleman who had paid his fare for Toledo on board the steamer Northern Indiana, was leaving the boat for the shore with his port monnaie in his hand. While on the plank, by some means, he dropped it into the lake. Thinking, no doubt, that he would never see it again, he offered to any one who would recover it one-half its contents. On hearing this, four persons belonging to the boat attempted its recovery. After diving four or five times three of them gave it up as a bad job; but the fourth—the barber—not willing to give it up so, dove seven times without success. Thinking there was no luck in odd numbers, and anxious for the prize, he determined to try once more,—made the eighth dive, and after remaining under so long that the by-standers feared he had lost himself, his hand appeared above water with the prize, which was hailed with loud and long cheers from the crowd. The gentleman, true to his word, counted out to the lucky barber one-half the money, which amounted to between four and five hundred dollars.

CRUELTY TO A SLAVE.—The Lexington (Mo.) Express has an account of the death of a slave at the hands of his master, Josephus Hicklin, from which we make the following extract: "The only fault alleged against the negro was that he was dissatisfied with his master, and wanted to be sold, and that he was lazy. For these alleged offences the negro was put to the torture."

Outside of the book of martyrs it would be hard to find any case that in point of cruelty affords a parallel to this. Mrs. Stowe's imagination furnishes no case upon which this is not an improvement. The lash, fire, gouging, beating over the head with heavy clubs, the rubbing of cayenne pepper and tobacco in his eyes, &c., were some of the appliances used, not for a single hour, a single day, or a single week, but every day, for more than three weeks, until he died. The fiend has not yet been arrested.

A waiter was examined the other day, before one of our courts. We annex his testimony.

"Your name is Flunkie, I believe?"  
"Yes, sir, Robert Flunkie."  
"Well, Mr. Flunkie, you say the defendant is no gentleman. What makes you think so?"  
"Cause, sir, he always says 'thank you,' when I hand him a mutton chop, or even a bit of bread. Now, a real gentleman never does that, but hollers out, 'Here, Bill get me a mutton chop, or I will throw this pepper-box at your head.' You can't deceive me with a gentleman, your worship. Cause why? I have associated with too many of them at the race-course."

THE KNOW-NOTHING FAMILY.—The know nothings seemed to have flourished in England two centuries ago. John Bunyan relates in the second part of his Pilgrim's Progress, that at the time of christiana's setting forth on her journey there was assembled at the house of Mrs. Timorous, sundry ladies, among whom were Mrs. Ba's-Eyes Mrs. Inconsiderate, Mrs. Light Mind and Mrs. Know Nothing. In a somewhat playful conversation which ensued, Mrs. Know Nothing merely asks a simple question—refraining with that tactfulness which still distinguishes those of her name, from any definition of her position in the matter under consideration.
